## Brief introduction

Hi, I'm a front-end developer who can code all day without getting tired.

I started learning to code five year ago,

In the past year, I have been very focused on learning front-end web programming. Now I am very confident that my abilities can meet your requirements.

## Work experience

### Front-end Web Engineer

**FPT Software**, Viet Nam, 9/2022- 6/2023

FPT Software is a software technology company in Vietnam with over 26000 employees in Vietnam and many countries in the world.

I am a front-end developer rank 2 for the Recruit projec - a platform to support find a job in Japan - team size 70 members. My day job is progress reporting, functional analysis, UI code, logic code, test writing, testing.

We use React, Typescript, Java, Jira and AWS for product development.

Because I have some household chores. And I also want to become the freelance worker. I asked to leave the company.

**Amela company**, Viet Nam, 2/2021 - 6/2022

Amela company is a startup in Vietnam specializing in software outsourcing and developing website for Japan.

I joined the company as a front-end on-the-job training. After 1 month, I joined in the first project. Products that I develop include landing pages and some function into the system displaying and calculating the reservation amount. After 6 months, I became a front-end developer and participated in 2 more projects at the company. Here I developed my personal skills quite quickly but I also left the company after that.

We used ReactJs to development front-end and JavaSpring to development back-end.

I also have technology sessions here to improve performance and improve code quality.
